Excellent book! This is a very comprehensive guide for anyone who wants to learn the most amazing fashion tips to help you achieve a chic look and to stay on trend. You will definitely learn everything you needed to know and I highly recommend this book to anyone interested!

No real new or useful information here - all very basic information that could be gleaned from any style article. Very little to allow the reader to understand aspects of style or tailor it to themselves (e.g., pencil skirts need to be cut differently for different figures and are not a necessary part of every wardrobe). Finally violates the cardinal sin of any fashion guide - no illustrations or photos at all!
