## Customer Reviews

Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

As expected

Good base maps to plan the base route for motorcycle holidays

I was disappointed in this. It's not the wonderful cartography of NG's maps and its atlases. And the demarcation between areas covered and areas not on the map is idiosyncratic. It's not very useful for Norwegian coastal voyages.
