Public Finance And Public Policy

Synopsis

Jonathan Gruber's market-leading Public Finance and Public Policy was the first textbook to truly reflect the way public policy is created, implemented, and researched. Like no other text available, it integrated real-world empirical work and coverage of transfer programs and social insurance into the traditional topics of public finance. By augmenting the traditional approach of public finance texts with a true integration of theory, application, and evidence, Public Finance and Public Policy engages students like no other public finance text. Thoroughly updated, this timely new edition gives students the basic tools they need to understand the driving issues of public policy today, including healthcare, education, global climate change, entitlements, and more.

Dr. Jonathan Gruber is a Professor of Economics at the Massachusetts Institute of Technology, where he has taught since 1992. He is also the Director of the Health Care Program at the National Bureau of Economics Research, where he is a research Associate. He is a co-editor of the Journal of Public Economics and an Associate Editor of the Journal of Health Economics. Dr. Gruber received his B.S. in Economics from MIT and his PH.D. in Economics from Harvard. He has received an Alfred P. Sloan Foundation Research Fellowship, a FIRST award from the National Institute on Aging, and the Kenneth Arrow Award for the Best Paper in Health Economics in 1994. He was also one of the 15 scientists nationwide to receive the Presidential Faculty Fellow Award from the National Science Foundation in 1995. Dr. Gruber was elected to the Institute of Medicine in 2005, and in 2006, he received the American Society of Health Economists Inaugural Medal for the best health economist in the nation ages 40 and under. Dr. Gruber's research focuses on the areas

of public finance and health economics. He has published more than 125 research articles and has edited 6 research volumes. During the 1997-1998 academic year, Dr. Gruber was on leave from MIT, serving as Deputy Assistant Secretary for Economic Policy at the U.S. Treasury Department. He was a key architect of Massachusetts ambitious health reform effort, and in 2006, he became an inaugural member of the Health Connector Board, the main implementing body for the effort. In that year, he was named the nineteenth-most powerful person in health care in the United States by Modern Healthcare Magazine. He acted as a consultant on several presidential campaigns and is considered by the Washington Post to be one of the most influential health care experts in America."

I used this book for my class, but it was not a good book at all.

Needed it for my class. Found it cheap here!

Arrived on time and quality promised.

Well-written, easy to follow, great examples--and I'm an Environmental Policy major, not an Econ major. I really wish I could keep it!

I think this was a new book Daughter is using this semester

Exactly what I needed, in great condition.

Greedy!
