I’m getting to have quite a collection of Paleo cookbooks, but I’m happy to say that this looks like it will be a valuable and well-used addition. This book isn’t padded with lots of front-material. It assumes that you already know what Paleo means for you or you will get that information elsewhere. She provides brief, practical suggestions for making meal-prep easy and affordable. Best of all, not only did looking at the pictures make me want to try many of the recipes, but when I read them, I actually have the ingredients on hand to make a fair number of them without a trip to ANY store, much less a specialty store. And when I read through her spice-mix recipes, I had most of the individual spices on hand. The only ones I don’t have, I don’t have because I already know that I don’t care for them. This is HUGE. I don’t have to find and buy some exotic new ingredient for every recipe I want to try, never to use the rest of it if I don’t like that particular recipe. I’m really thinking that many of the recipes I see here will be making frequent appearances on our table because they are easy enough and affordable enough for “everyday” cooking. And now to go take some ground beef from the freezer. The beef stroganoff is calling to me for tomorrow night’s dinner! There is only one thing I want to note. The print could have been a bit bigger and darker. I know from experience that I will need my reading glasses during allergy season, but this will probably not apply to 99% of readers.

We have been enjoying the Frugal Paleo Cookbook--even though we are not necessarily paleo!

With three small children at home finding ways to trick them into eating more vegetables had become so tiresome and our meals lackluster. But with Ciarra's unique recipes I now feel like I have a great stockpile of resources at my fingertips! Who knew you could throw kale and squash into taco meat--and who knew it tastes DELICIOUS! (Well, my kids know now!) I am in awe of all her clever ideas and I can't wait to serve my family another healthy, affordable meal!

If I could give this book six stars I seriously would. EVERY SINGLE recipe I've tried and made so far is so easy and DELICIOUS! I am a self described cook book hoarder... as in I love buying them, but sadly, I don't use them much. THIS book is a whole different story. I find myself constantly looking to it for recipes as well as Ciarra's blog. As a mother of two little kids and the wife of a die hard pasta fan, trying to keep everyone healthy and on the right track can be challenging, but with Ciarra's recipes everyone leaves the dinner table happy and full! I love the way she writes too--she "talks" to the reader and teaches them as if she was one of your girlfriends, or sisters, sitting in your kitchen teaching you a yummy recipe. I LOVE this book and am hoping for another!!!

This may be my favorite paleo cookbook I've ever bought. I also own both Well Fed's & Nom Nom Paleo's book, along with multiple primal cookbooks. What I like about this book over the others is how approachable all of the recipes are. I'm not that great of a chef so simple is key for me. Nom nom paleo's book is excellent and beautiful to read, but the recipes in there usually call for things that I usually never have on hand. Well Fed is also an excellent book but it took me TWO HOURS to make the shepherd's pie recipe and although it turned out delicious, I don't want to commit that much time to making a dinner. This book presented an idea I had never thought of before to save money but makes perfect sense: themed food weeks. By using similar flavor recipes for a week you are able to use up all the fresh cilantro or basil you bought. Wasting fresh herbs has always been a problem for me. She has so many recipes that it was easy to find a week of Mexican, Italian, or Asian flavored recipes. This book has now become a lifeline during my Whole 30, I highly recommend you get it!

I'm relatively new to the Paleo lifestyle, and I'm on a budget. The Paleo lifestyle can be daunting when it comes time to ring up your groceries. I know because I have a handful of Paleo cookbooks, and while I admire the artistic chef-like way that other Paleo authors recreate traditional comfort foods using tons of almond flour, coconut flour, and other expensive Paleo staples, I just can't afford

to eat that way right now. This book is different in that it goes easier on that kind of stuff, and as a general rule, tends to focus on meats, veggies, and the like. You need a Paleo friendly fat to cook with and a few recipes call for coconut aminos, flaxseed meal, or arrowroot powder. I think that's incredibly budget friendly. Sorry, but if you're looking for a cookbook that has a bunch of three and four ingredient recipes, this isn't the book for you either. That being said, most recipes are under ten ingredients. I have a well stocked spice cabinet because I'm already a confident, adventurous home cook so my shopping list tends to be reasonably short for most recipes in this book. There are all kinds of categories in this cookbook: beef and lamb, poultry, pork, seafood, eggs, vegetables, and basics. I think anyone, Paleo follower or not, could get something from this book. The basics chapter is great. It contains lots of seasoning blend recipes. Since my spice cabinet is stocked, I can blend up several seasoning blends now, and when time is short and I can't meal plan, it will be easy to season a protein and grill it or roast it on short notice. I was also pleasantly surprised to find a handful of crockpot recipes. Out of the Paleo cookbooks I own, this one is the workhorse on my bookshelf. If Ciarra publishes more books along this theme, I will be pre-ordering them!
