## Customer Reviews

Great

I needed to brushup on my harmonica, so I purchased this book. It's simple, fun, and it works. Good purchase.

Another Christmas gift.

Gave as a present to my grandson. He loved it.

Great value for a used book. It could of included more songs. Some useful info.

Like it alright

I bought this book to give to a friend who needed to learn harmonica for a part in a play. He had not played harp before, and this little guide helped him become a pretty good player with a few days of practice.

Keep looking. One of the best things about this book are the pictures of some of the best blues harmonica players. There are a few tunes, but you would be better off with a song book like Instant Harmonica or the like which has much easier tablature to follow; I did not at all find this a good book for beginners- in terms of difficulty it goes from 0 to 60 in ten pages. Pretty soon you find yourself staring at sheet music learning quarter, half and full notes and trying to figure it all out with timing! The bending section I didn't find of much use either. It is a well made book, though, and provided a few interesting terms and definitions.
