As a mom and former Pre-K/Kindergarten teacher, I absolutely love the Wee Sing & Learn ABC cd and book set! I have three others in the series (Dinosaurs, Colors, and Bugs) and my four-year-old daughter loves them all. The ABC one has an animal and an instrument for each letter and plays the real sound of each animal and of each instrument. Then it also has several little pictures down the side of each page corresponding to each letter of the alphabet. Perfect for trips in the car!

My 2 year old granddaughter loves this! It is very high quality, utilizing authentic sounds of each

instrument and animal sounds.

I was so excited to see this new format! CD and board book! How perfect, right? I don't like the design of the book. The handle is nice, but the binding is not very strong. I also prefer the paperback, as there is only one animal per page. So far, my kids, and the kids I use the book with at school, prefer the paperback version. Order the old paperback, but get this for the CD. (If you really love it!) Other than that, I love WeeSing and will continue to buy the products, I just don't think I will be buying this style of book!

Another book that never loses its appeal and I am on my second book and cd. Third grandchild is learning and it does a good job plus it is addictive and they want to listen again.

Birthday present for our 3 year old. He asks for it almost everyday!! and the older kids stop to listen as well. :)

Great ABC book and CD. Highly recommended. My daughter loves it. The author has done a great job putting the names, animals and instruments all together

Three year old loves this!
