## Customer Reviews

If you've been holding out on a Gravity Falls purchase for something with a bit more new content, then you've definitely found the right book! It's stuffed to the brim with lore, facts, codes, activities, and silliness. Everyone's written in-character and I appreciate that new art was made for parts of the book. While it's no Journal 3, it organizes existing Gravity Falls knowhow from the point of view of Dipper and Mabel (even some new info that hasn't been mentioned in the show yet!). If you've enjoyed pausing the show for funny/mysterious details, then you'll love catching all the little goodies in here. Though Alex isn't credited as one of the writers, he approved the book himself and added in some of his ideas, so you know it's legit. By the way, the ciphers people have been finding in the show are now officially revealed by Dipper in the section about Secret Codes. I really appreciate

that they're letting these codes be more accessible to kids now, because at first it was only the online community that really talked about the ciphers hidden throughout the show. There's even a decoder wheel you can cut out for the Caesar cipher! This is exactly the kind of book I would have LOVED as a kid (and currently love as an adult). I don't want to spoil anything, but reading through it feels like watching an episode, with just as many laughs and gasps as the show it's based off of. Now I just need to buy two more for my siblings. I'm definitely keeping this copy.

My daughter is obsessed with Gravity Falls! I ordered this as a surprise gift and she literally squealed in my ear when I gave it to her. She's had it for a few months now and still takes it everywhere with her, just in case she needs to write down a mystery note.

This book is fantastic. A must have for any fan of Gravity Falls. Fans of all ages will spend hours reading and finding all of the little tidbits this book supplies. I bought it for my 8 year old, but I enjoy flipping through and chuckling at the fun content. Gravity Falls was a fantastic show, and this companion book was a wonderful find!

It's fun! Definitely for kids. There's not too much that adults can also enjoy, since it's honestly an activity book, unlike Journal 3 and the Choose Your Own Adventure book. But whether you're a kid or a kid at heart, it's still really cute and fun, and you can find out what type of boy Mabel thinks is perfect for you and have some greater insight to Dipper's inner thoughts and head-space midway through Season 2, before some really character-changing events happened.

This book is interesting + hilarious! It captures the awkwardness and interesting traits of Dipper, and the crafty and goofy traits of Mabel through detailed writing. When I first saw this book on the book store, I thought, well it seems like a cool book but all books based off of movies/ Tv shows tend to be pretty short, (like 30-50 pages.) So this book is probably the same. BOY I WAS WRONG!!!!!! this book has 150 pages, complete with pictures, codes, and colorful doodles! Every main character takes at least a paragraph in this book. My favorite parts were: 1. Grunkle Stan's jokes (I cried laughing!) 2. Soos's how to (the drawings make Soos look adorable!) 3. The quizzes and mazes! (I spent hours with my friends finding out how well you stood up to monsters!)

I loved this book so much it is fun and mysterious! I would recommend this to anyone who love gravity falls Gravity falls for ever! 

This book is so good! Mabel and Dipper are written in character, it's funny, entertaining and has lots of clues related to the show. I'm not exaggerating when I say it's FILLED with hidden goodies. I'm thinking about getting a second copy because mine is full of sticky notes. Besides, this would tide you over until the show comes back from hiatus in Summer 2015. I hope they make another one for the third season. UPDATE: July 17, 2015 The show's come back from hiatus and there are actually jokes in this book that didn't pay off until 'A Tale of Two Stans'. I'm constantly gobsmacked at how much detail was put into this book. I bought another of these for my sister, who is seven, and while she doesn't get all the references that older fans of the show would get (like all the cryptograms), she's had a ton of fun doing the other activities. We even did Mabel's recipes for drinks and they turned out really good.

I purchased this for my daughter as one of her Birthday presents. She is a really big fan of the show, which sadly only ran for two seasons. She really enjoyed the book and wants to get more from the series.
