arts.

Love all these books as they are generally in original keys and do not leave out intros, as some books do!

Purchased for my daughter. She's played out of it and the other volumes already many times. She's in Master program at ASU and finds them very helpful.

My daughter has all of the Hal Leonard music books for soprano and mezzo-soprano. She loves them.

I have all the other volumes and this is my new favorite!

I try all the products that I review for at least 15 days -- My hope is that if there is something that is an issue that I can spot it. Singers Anthology is always a terrific book..Disclaimer :- I have received this product at a slight discount in exchange for an honest review. My reviews all go by the same breakdown on my star rating of a product: 5 stars  I love it! It is awesome and I highly recommend everyone to purchase this product! 4 stars  I like it, but there are some flaws. I would purchase again. 3 stars - It was okay, but I would probably not buy it again unless there are no other options. 2 stars  There may be worse products out there, but you can definitely find better choices. 1 star  I dislike the product, enough said  I cannot tell you no, but this is as close to that as possible..

So useful for auditions !

Just a heads up...this does NOT include the song book. It is only the CDs. Not super clear in the description. You have to order the book separately. Which is weird, because I own some of the other volumes of the Singers Anthology and the book and CDs came as one package.

If you're not up on the latest crop of musicals, very little in these newer volumes will be familiar, and I can't say I'm finding anything terrifically appealing as I read through them either. Much of it sits very low--E3-C4. A few melodies show promise of being halfway interesting, but then they throw in an F-bomb. Does that make it edgy? Meh. Plenty of others are just 10 pages of rambling through

the same 5th on the scale. All in all, not much to use here.
