## Customer Reviews

I will be starting to tutor elementary Mandarin Chinese soon and I'm very impressed with the layout of this book; it's wonderful that this is a continued series; brilliant! I will definitely be ordering the next one when the time comes to do so. Inside, there are plenty of well-designed activities that will make learning Chinese fun for my students. The price is more than affordable. All I know is, if I had the opportunity to learn Chinese at a younger age, with this book, my level of knowledge would certainly surpass to what I know presently. This book is a perfect tool for a beginners level of Chinese

This is NOT EASY! AT ALL! This is definitely not for beginners. I'd say this is more intermediate. You have to have at least some basic knowledge of Chinese writing in order to even attempt this. You should study radicals and practice drill writing on big graphed notebooks/paper before you get this.

I use this book for my university students and it works like a charm. A word of advice, decode the

CDs into mp3 format for easier search.
