A Two Hour Koran (A Taste Of Islam Book 1)

Synopsis

In about the time it takes to watch a professional sports event, you can comprehend the Koran. Since the Koran is famously known to be unreadable, how can this be? The Koran found in the bookstore is not the historical Koran of Mohammed. The original Koran was a story that unfolded as Mohammed's life situations changed. The bookstore Koran is arranged by length of chapter, not time. The bookstore Koran has no time, no Mohammed and no story. Therefore, it makes no sense. Using statistical methods to select the verses, the Two-Hour Koran has woven Mohammed's life back into the Koran itself. Now the verses have context and meaning. Everything is in the right order and the original story has been restored. Once you have read A Two-Hour Koran, you can pick up a bookstore Koran and understand what you are reading.

This is an objective book on how to read the Koran. I read the Koran last year. Then I found this helpful booklet as a guide to re-read the Koran (which is organized by chapter length). This book discusses the smattering of a few stories scrambled from the Torah, Prophets mentioned in the Old

Testament, (remember this timeframe in within the 700s a.d.) it mentions people in the New Testament, and also teachings in the Persian Zoroasterism. This is a good reference should you wish to know about how Mohammed conquered other tribes, including Arabs who differed, subjugated other peoples, Jews and Christians, took their wealth, accession used based upon Ezekiel and Jesus Christ. Not necessary as some claim, to be read in Arabic to be understood from a pure learning perspective rather than worship - after all we laymen don't use Hebrew to read the Old Testament, or Greek to read the New Testament. To understand how Islam treats women and Kafirs, this is an excellent booklet. Be sure to check out: [...] from Bill Warner's commentaries and other books available in this series.

Easy to read but not simplistic. This book will give you the basics of Islam's support of slavery and its hand in slavery since its inception. Everyone needs to have concise accurate info on Islam to understand world, national and most likely local events to evaluate correctly what you are hearing. You need to understand the Quran has two parts and it still incomplete for Islamic doctrinal guidance.

Great book. Help me to understand Islam much better so that I am not deceived by their propaganda.

I think of myself as a slow reader. I got this done in just over 2 hours. I have passed this to a few others to read. We all thought the same thing..."wow". Good job Mr Warner.

Summary with some details that are very interesting.

Very easy way to get a basic education in Islam. Well written with no excess verbage.

I had tried to slog through the Koran before but found it unreadable. By reading the Sura first, then reading the blended Koran, it is all much more understandable. Everyone should read this, even Muslims.

Very informative and easy to read book. I think everyone should read the Koran. We need to know more about the fastest growing religion in the world. It is interesting to know that Islam divides the world in believers and non- believers and how the treatment of these groups are so different. A must

read!!!
