As an advanced pianist who is constantly looking for beautiful and easy to learn pieces, this book is perfect. I am always on the prowl for music I can use as background during dinners or preludes before shows, and pretty much all of these are usable. They are beautiful arrangements and I was able to sight read almost all of them perfectly - which means I don't have to practice much and they are ready to go for background music!

some people say piano books are too hard, this one is a little too easy and fluffy. Edlweiss was the song I specifically wanted. I wanted chords, not drawn out fluff to make it longer. Not a bad book, but I have found better when music stores had more selections for books twenty years ago.

Familiar songs good for teens and adults. Great supplemental book for both teens and adults

I like the arrangements and the selection of songs.

These arrangements vary from the very challenging to the fairly easy (for the moderately skilled). I love the harmonies. These pieces are really fun to play.

I'm enjoying playing these songs.

Wonderful songs I am wanting to get started playing but I had back surgery so I can't play for a while.

Nice balance between simpler and more challenging arrangements of great Broadway hits, including lots of beautiful harmonies. Keveren is a talented arranger.
