The Death Of Aztec Tenochtitlan, The Life Of Mexico City (Joe R. And Teresa Lozano Long Series In Latin American And Latino Art And Culture)

Synopsis

Winner, Book Prize in Latin American Studies, Colonial Section of Latin American Studies Association (LASA), 2016ALAA Book Award, Association for Latin American Art/Arvey Foundation, 2016The capital of the Aztec empire, Tenochtitlan, was, in its era, one of the largest cities in the world. Built on an island in the middle of a shallow lake, its population numbered perhaps 150,000, with another 350,000 people in the urban network clustered around the lake shores. In 1521, at the height of Tenochtitlan's power, which extended over much of Central Mexico, Hernando Cort s and his followers conquered the city. Cort s boasted to King Charles V of Spain that Tenochtitlan was "destroyed and razed to the ground." But was it? Drawing on period representations of the city in sculptures, texts, and maps, *The Death of Aztec Tenochtitlan, the Life of Mexico City* builds a convincing case that this global capital remained, through the sixteenth century, very much an Amerindian city. Barbara E. Mundy foregrounds the role the city's indigenous peoples, the Nahua, played in shaping Mexico City through the construction of permanent architecture and engagement in ceremonial actions. She demonstrates that the Aztec ruling elites, who retained power even after the conquest, were instrumental in building and then rebuilding the city. Mundy shows how the Nahua entered into mutually advantageous alliances with the Franciscans to maintain the city's sacred nodes. She also focuses on the practical and symbolic role of the city's extraordinary waterworks – the product of a massive ecological manipulation begun in the fifteenth century – to reveal how the Nahua struggled to maintain control of water resources in early Mexico City.

Book Information

Series: Joe R. and Teresa Lozano Long Series in Latin American and Latino Art and Culture

Hardcover: 256 pages

Publisher: University of Texas Press; 1 edition (July 15, 2015)

Language: English

ISBN-10: 0292766564

ISBN-13: 978-0292766563

Product Dimensions: 8.5 x 1 x 11 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Best Sellers Rank: #206,573 in Books (See Top 100 in Books) #29 in Books > History > Ancient Civilizations > Aztec #225 in Books > History > Americas > Mexico #268

Customer Reviews

"With a cartographer's sensibilities and a streetwise art historian's presence of mind, Mundy (Fordham Univ.) has produced a formidable reimagining of the Indigenous landscapes that underpin the growth of the largest metropolis in the American hemisphere." (Choice 2016-01-01)"Deeply researched, insightfully conceptualized and argued, and written in an engaging style...a book of particular importance." (caa.reviews 2016-02-11)"[T]his book is exceptional, poised to make an immediate and permanent impact on the discipline of art history and beyond. The carefully argued, eloquently written, and beautifully illustrated text was well worth the wait. . . . Mundy's monograph exhibits the process of academic maturation in the very best light; she presents herself as a scholar whose sound early work provides a firm foundation for her own midcareer fluorescence, much like the renewal of Mexico City itself. " (Art Bulletin)"Codex studies and translations of indigenous-language manuscripts have been burgeoning in the past few decades, and yet the fields of history and art history have been crying out for someone to bring them together for a new, overarching view of the crucial center of one of the two most important Spanish colonies in the Americas, especially in the crucible that was the sixteenth century. . . . This book makes a wonderful contribution to our understanding of the colonial evolution of the capital city of what we now call Mexico, giving special attention to the fact that the indigenous population, its leadership, and its culture had greater longevity and made more significant contributions to the city than have previously been recognized. Barbara Mundy synthesizes a tremendous amount of new research, integrating it with what has enduring value in earlier studies, and adds to that sum original research of her own. She provides careful substantiation for her arguments, convincing us of her conclusions." (Stephanie Wood, Director, Wired Humanities Projects, CORE, College of Education, and Adjunct Professor of Latin American Studies and History, University of Oregon; author of *Transcending Conquest: Nahua Views of Spanish Colonial Mexico*; and coeditor of *Mesoamerican Memory: Comparative Studies in Systems of Remembrance*)

An instant classic!

Mundy's ability to illustrate the indigenous agency in Mexico/Tenochtitlan well into the early 17th century cannot be overstated. While there are many texts that purport to do this, Mundy takes it to the next level with heavy interdisciplinary influence. I constantly find myself referring back to this book as I continue my studies, as it serves to demystify the time period and shatter the myth of Spanish hegemony (at least early on). The indigenous were in the city, and they were speaking, litigating, building, and engraining themselves in the colonial political process. Mundy makes those voices resonate in a way no other text has, in my opinion.
