Dr. John Maxwell shares some GREAT insights about how to get along with people to become an effective communicator, connector, and leader. When people know you have a heart, then they care if you have a HEAD. When people know you care, then they'll care if you know how to help them. So many times, we come across folks who try to dazzle us with how much they know, or baffle us with their brilliance, but most of the time, we do not engage them, because we just don't know if they care. Offer a hand before you ask for a hand as Dr. John Maxwell says! A MUST read. William TehInvestor | Author | EntrepreneurTTTrends Investments

I loved that he was personable, his stories were more than just stories but illustrated a point that can be part of anyone's life. I would recommend this book to anyone who struggles with knowing how to lead but also those who do not think they are extroverts. Especially those who are in the MLM world and trying hard to build a team.

love it great book! fast shipping

Very enlightening! Loved it.

Gave a great insight to some personal issues I need to improve and I got some new ways to inspire the morale of my staff at work. If you're a leader in your organization, this will definitely help.

I thoroughly enjoyed this read, and will surely keep it for a reference to refer back to regularly. I think I will have my son read it as well.

Very solid as usual from Maxwell.

The title of this book piqued my interest. This book is an easy read. It's informative and eye opening. This book is a valuable resource for individuals in positions of leadership. It raises awareness of personal behaviors and changes that individuals can make to improve personal and professional relationships.
