Customer Reviews

My wife is Korean and found several errors on the flashcards. That being said, the example sentences were well chosen.

Arrived quickly, packaged well. My grandson is studying Korean Karate, so these are great beginner cards. He enjoys them, the cards have a picture with a word in Hangul (Korean language) and the explanation and a phrase on the back of the card.

I love it! The poster is really helpful with all the pictures. The sentences in the back of the cards for each picture are really amazing and helped me. I wish they had more pictures and cards though.

Got my package today and started to look at the flash cards and poster, i like it. But when I looked for c-d it was missing.

My 13 year old daughter loved it and she is learning Korean really fast.

So far So Good

These are wonderful

I love it . But to be honest I need to practice more...
