Sasha is my pen name. Sasha O'Hara is that part of me - of all of us - who is fully self-expressed and says whatever the f*ck is on her mind. All of my books contain both original designs, as well as high quality, hand-curated licensed images from artists around the world. This book will do exactly as it says. It will help you calm the f down. The book is awesome. It has one image per page, not front and back, so no worries about markers bleeding thru and ruining another image. I love that there are a couple of pages at the front to test your colors on. The book has awesome images and sayings. The images vary significantly so there really is something for everyone. I've included some sample images from the book to get an idea of what is inside. Amazing book for anyone who loves to color at a super reasonable price. Great gift idea. I'm buying

a couple more for friends now that I've seen the inside. Only thing that could make it better is if it were spiral bound, but that's just my preference.

Better than expected. Many of these will end up framed once colored (and maybe even given as gifts!).

Loved the title.

This book summarizes my life. The day it arrived in the mail, my 12 year old daughter was having a hysterical fit over the screen of her iPhone not working correctly (which was solved by restarting her phone - but not until she sobbed hysterically about her life being over for 30 minutes). I looked at her face, I looked at the book, I looked at her face again, I looked at the book again. And all was right with the world. I don't have enough words in my vocabulary to describe how awesome the drawings are in this book. Sometimes I want something intricate to focus on while the world around me is being annoying. Sometimes I want something quick and easy. And some days I just want to color in pictures with silly words. This book allows me to do all of the above. I can't even begin to pick a favorite picture. There are so many incredible choices. They work well with pens and pencils. The pictures are cheeky and fun. There's something to suit every mood swing. Well almost every mood swing - I'm not sure about the full spectrum of tween girl mood swings yet. I seriously want to find the author and give her a hug. And maybe buy her a drink. Because she gets it. I already ordered the next book in the series - and I know I will love it too. I've attached a couple of my favorites. These gave me great joy to color. If this matches your sense of humor - then you need this book

Love this entire book. Pictures are a fun challenge to color & the quotes are very funny & true!!
Hoping that there will be another book soon!!

It took me a while to find this coloring book and I'm so glad I did. I wanted an adult coloring book for my sister for Christmas but I was having a hard time finding a book that was still cheeky without being vulgar; so many of the adult coloring books I looked at included words like cumdumpster or cumslut which I personally find just disgusting, never something I'd give to a loved one. We had great fun coloring this together (siblings and cousins alike), and greatly enjoyed pages that toted things like "Bite Me" with a picture of an apple or "I love the sound you make when you shut up"

featuring a parrot.10/10 would buy this again :)

I've hopped on the bandwagon and started coloring to keep my stress levels down. This is a great book for that, my only complaint is that this (and many others) do not have perforated pages, so when I color a page for someone (it's GREAT to see their face once they open it and see what it says) I have to go back over the edge with an xacto knife to clean it up. I use crayons (the long ones that are like colored pencils), colored pencils, and gel pens with no problem. Haven't tried markers yet.

Coworker loved it. It's SUPER thin but still, she liked it so I'll tolerate the lack of material and cursing. It's more offensive than anything which is good being offensive but I was kind of expecting the curse words to be a part of the picture, not just on the bottom or what not.
