## Customer Reviews

Right off the bat from reading the introduction of this book, Mudras for a Strong Heart, I was fascinated to learn something different. I never knew that there were actually 5 elements and I was curious to know why there are five and not four elements. What I like best about this book is that it's easy to understand for anyone who is not familiar with any Hundi practices or methods. Also the illustrations are fabulous. Instead of guessing how to put everything into practice, everything is displayed in the most basic way possible. I've been able to put most of the illustrations into practice while reading this book and I recommend everyone to try this as well. In a way, I felt like I was learning sign language which was pretty cool. Definitely going to use this Mudra method during my yoga sessions. Another bonus that the author included in his book are a series of books that relate to this topic. For example, Mudras For Awakening Chakras. This is a book I am considering buying for sure. Overall, I recommend everyone to pick up this book and not only read it, but put it into practice. Take your time reading this book and use each gesture suggested. Good work Advait! Looking forward to reading more of your books that you have.
