How Do Dinosaurs Learn Their Colors?

Synopsis

The bestselling, award-winning team of Yolen and Teague present their third original dinosaur board book, a fun read-aloud that teaches children all the colors of the rainbow. Dinosaur colors start with red: A red fire truck stuck under the bed, A purple towel left on the floor, A green sign taped to the closet door. The third board book by the bestselling, award-winning duo Jane Yolen and Mark Teague focuses on one of the most fun concepts learned in childhood: colors. Packed with vibrant illustrations of dinosaurs drawing, painting, and playing, this book will captivate and inspire children as they learn their colors.

Customer Reviews

Jane Yolen is the beloved author of more than four hundred books for children and adults, including award-winning picture books, fiction, and poetry. Her How Do Dinosaurs books have sold millions of copies and are international bestsellers. She regularly travels the globe speaking and teaching.

Jane lives in Western Massachusetts with her children and grandchildren, and she also lives in St. Andrews, Scotland. You can also visit her at www.janeyolen.com. Mark Teague is an award-winning children's book author and illustrator whose books include the NEW YORK TIMES bestselling How Do Dinosaurs... series, the LaRue series, FIREHOUSE!, FUNNY FARM, and many other humorous

picture books. Mark lives in New York state with his wife and their two daughters.

I'm introducing numbers to my toddler and this book was thoroughly enjoyed during bedtime! Very eye catching illustrations!

Very disappointed. The object in the color to be learned is hardly noticeable on the page. Sort of a "Where's Waldo" hunt to find the subject color.

The rhyme is cute, but the illustrations were off. The items being described with the colors were small and hard to notice, and awkward. Brown marks on a calendar?? Really? How does the author expect a small child to notice details like that? Especially when there is a huge piece of chocolate cake sitting there. Would have been a better example.

My grandson loves these book and now his baby sister brings them to me to read to her. They are tough too. Non of these have fallen apart after pretty rough handling from a 3 yr old and and 1 yr old. That makes for good value and happy customers. Many other books have fallen apart under the abuse.

Not the strongest book in this series. The items representing the colors are small and sometimes a stretch. This is a fun read, but not the best for distinguishing colors.

A very cute hardback book in the How Do Dinosaurs series. My little one loves rhyming books and was a huge fan of How Do Dinosaurs play with their friends and How to Dinosaurs Say Goodnight. This book doesn't disappoint. Since we get to read it once or twice every night he is learning from it and memorizing the words. The illustrations are fun and colorful as well. I love the hardback, board book because my kid can't accidentally rip it in his excitement to reenact the dinosaurs behavior. I highly recommend this book for your kid or as part of a birthday gift for another kid. Give the gift of reading!

I bought this for our 19 month old grandson who recently became interested in all things related to dinosaurs. He loves these stories! The story itself is a good length for little ones and the pictures are colorful. My daughter in law is a preschool teacher and loves this series for her students.

The kids like this book - they love all of the Dinosaur books. The story is a lot shorter than the other books.
