Justice Denied – A Harper Ross Legal Thriller

Synopsis

Harper must deal with a dark part of her past when she defends her rapist, Michael Reynolds, who is charged with murdering a judge. Harper wants revenge, so she takes the case with the explicit desire to throw it. But as she digs deeper into the case, she understands that if she throws Michael's case, it means that the real culprit will go free. Struggling with her conscience, which is fighting for her desire for vengeance, Harper must access some of the darkest recesses of her brain. As she digs in deeper into the case, she finds a conspiracy that goes to the highest level. She's not clear, however, if Michael Reynolds is also involved. Harper wants to see Michael convicted, even though he's her client. If he's not involved in the murder, can she try to throw his case anyhow? Doing so would go against her conscience and ethics. But it would also set her free...

Customer Reviews

I just finished this book and was given this ARC to read and give an honest review. This is the second book in this series. Harper Ross is a tough criminal defense attorney with a complicated

past and current issues that I felt were written in a real sense. I don't want to give a lot away but I will say that this character is very well written, very well developed and you feel her struggles and her pain. You want to root for her and you want to feel satisfied when previous injustices are righted. I can't wait to read the next installment. Hope it is already in the works as I will be impatiently waiting to see what happens next.

The characters are interesting in this series so far. The story lines keep you coming back for more, too - although this particular book reminded me too much of the "Pelican Brief". One thing about the author's writing style really bothered me, however. What's with all the repeating of sentences and parts of sentences? Very annoying. The proofreader of these books needs to pay more attention to verb tenses, missing words and/or repeated phrases in sentences (lots), and misspellings. Errors on every page!! It makes for difficult reading and is also annoying.

Rachel Sinclair is a Social Warrior author. Too bad, she has talent. I would read more of her books, but this "greater good" syndrome over the actual law is uncomfortable. If you own a big company, you must be doing something bad. If you have committed crimes in the past, any circumvention of the law to nail you is okay. God help you if you are a Republican. A good judge is one who follows his heart and passion, the law be damned. Too much of this crap on CNN. I don't need it for entertainment.

Had seen numerous books written by this author so thought I would try reading one. It was a struggle. Did not like the main character despite her issues. Too many sub-plots to follow.

This is one of my favorite legal thriller series. The twists and turns, great characters and plot lines are page turners. Can't wait for the next case.

This is a wonderful legal novel. It is filled with twist and turns that keep you turning the page. That is why I gave it 5 stars!!!!

A very boring read and repetitive!

Harper may have had a hard time keeping her cool with her new "client," but she was able to get the results she wanted in the end, that's for sure. Go Harper!
