ISO 14001:2015, Third Edition: Environmental Management Systems – Requirements With Guidance For Use

Synopsis

ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.ISO 14001:2015 helps an organization achieve the intended outcomes of its environmental management system, which provide value for the environment, the organization itself and interested parties. Consistent with the organization's environmental policy, the intended outcomes of an environmental management system include:+ enhancement of environmental performance;+ fulfillment of compliance obligations;+ achievement of environmental objectives.ISO 14001:2015 is applicable to any organization, regardless of size, type and nature, and applies to the environmental aspects of its activities, products and services that the organization determines it can either control or influence considering a life cycle perspective. ISO 14001:2015 does not state specific environmental performance criteria.ISO 14001:2015 can be used in whole or in part to systematically improve environmental management. Claims of conformity to ISO 14001:2015, however, are not acceptable unless all its requirements are incorporated into an organization's environmental management system and fulfilled without exclusion.

Book Information

Paperback: 44 pages

Publisher: Multiple. Distributed through American National Standards Institute (ANSI); 3 edition (September 15, 2015)

Language: English

ISBN-10: 9267106783

ISBN-13: 978-9267106786

Product Dimensions: 8.2 x 0.1 x 10.5 inches

Shipping Weight: 5.6 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars   2 customer reviews

Customer Reviews

Arrived quickly and correctly

This is the second document that I have purchased from along with ISO 9001:2015 quality management standard. It is about 35 pages journal size document with two-side print that specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance.I needed both of these standards for work and they both served my purpose.
