LEE J. AMES began his career at Walt Disney Studios and taught at the School of Visual Arts in New York City and at Dowling College on Long Island, New York. Perhaps by now you have come across one of my "Draw 50" books, or perhaps this is the first one you've ever picked up. Either way, I hope to show you in this book how to draw a wide variety of fascinating sea creatures. I have a great love and respect for the other creatures of this earth and for that reason, I've chosen to go underwater and give you a sampling of the wonderful life-forms that live there.

Both my kids love to draw. I bought this because my son is obsessed with sharks. This is a great "how to" book. Very impressed! I'd say for ages 8+

Extremely hard for a beginner

My 6 year old son loves it and his sea creature drawings are now recognizable!

Daughter loved it.

Nice little book to learn how to draw sea creatures.

Very fast shipping and my little cousin loves it!

Granddaughter gift. She loves it!!!!!!!

Got this book for my 9 year old and he loves it. He was able to quickly draw sharks really well. I highly recommend this book to anyone who want to learn to draw. The book offers many easy examples to follow.
