Customer Reviews

First of all, this is misleading: I know this is a guide, but that picture implies this is the game... IT'S NOT THE GAME. It's not even affiliated! Secondly, I've bought these books before and 3 bucks for 4 pages of information is absurd. I haven't even looked at it yet, but I know I've been had.

Its good but when you download it , it has you do a lot of things so you can download it if you play subway suffers.

If you are going to write a game guide, then actually tell information that not everybody knows. Tell how to hack stuff or something. I wasted 3 dollrs on this book you probably wrote in 10 minutes. One of the pages was just this: *. If your going to sell this book, sell it for like 10 cents.

Great book for my kids we love to play and read it together before bed time each night. Great book never bought it but it kept popping up and somehow got purchased

I like running games . Its very fun . there's a lot of things to do in this game . The person who made the game was excellent.
