Tournament Final Tables: Poker Workbook Vol 1

Synopsis

The final table is where every poker decision is magnified. Any mistake can be the difference in thousands of dollars, and every great play can rocket you up the pay jumps. This workbook prepares you to play better tournament poker and capitalize at each final table you make; whether you are the short stack or the chip leader. This is not a traditional poker book. This is a true WORKbook that will challenge you to improve your range building, ICM, and line creation in tournaments. With 40 exercises, this full-color book will guide you through assigning better ranges on every street and through a variety of hands. With guiding questions and extra follow-ups, you can use this workbook to analyze the spots that profoundly impact whether you bust out in 8th - or ship the event. IMPORTANT NOTE: There is no direct answer key for this workbook. Hand reading and range building is linear, and it would be impossible to offer great river range suggestions without first knowing what you assigned preflop. But each exercise you do will improve your technical skillset (understanding combos, ICM, frequencies, etc.) and allow you to spot leaks in both your's and your opponent's strategies. You already know studying is important. This workbook lays out your study regiment for months to come and will keep you focused on the right things, asking the right questions, and making better decisions so that you can take advantage of every final table that you make. Godspeed.
