Grade Level: Preschool - Kindergarten

Customer Reviews

Angela Banner first wrote Ant and Bee as a way to teach her son how to read. The first book in the series was published in 1950. Since then, Angela has written 22 Ant and Bee books.

Given to my daughter by her grandmother and fondly remembered. Now given to my daughter's daughter by her grandmother. Rosie says "I love Ant and Bee."

Very much tied in with a young child's conception of birthdays. A motivational read for my five year old!

Have loved these books for years. These are reissues - the old originals are collector's items now. Different pictures, but close.

Cute little series. Entertains the child and the adult who is reading. Perfect size for little hands. I hope the whole series stays in print for new parents.

I got my first Ant and Bee book for my son on a recommendation from a nursery school teacher from the Bank Street School. My son is not quite two years old, and already follows the pictures and words in these classic books with glee. And because they are just his size, in bright colors, he especially likes to carry them with him when we travel. He likes pointing out characters like the Zoo Man and the Kind Dog, and of course, Ant and Bee. Most interesting about these books is that the text itself is fun for children to look at. Key words are highlighted with varying fonts and colors, and sections are sprinkled with miniature versions of pictures from larger illustrations. Happy Birthday with Ant and Bee highlights the days of the week, as Ant and Bee plan a birthday party for Kind Dog. Each book has its own special twist with familiar objects. I recommend the entire series.
