Customer Reviews

For anyone who loves to study the cosmos, this is a perfect starting point. This book was required for my college astronomy class but it reads so well i would recommended it to high school students

As advertised

I wish I would have bought this instead of just renting it! Chapters are laid out very well, reviews at the end are comprehensive, too.

item arrived on time and was as described

Wow, glad to get my hands on this

Great read!! So much information!!

Excellent

great book. used for class
