Cavan Scott is an author and comic writer for both adults and children. He has written for a large number of high-profile series including Doctor Who, Star Wars, Penguins of Madagascar, Skylanders, Adventure Time, Pathfinder, Angry Birds, Judge Dredd, Disney Infinity, Blake's 7, and Warhammer 40,000. His credits include novels, comic books, children's annuals and activity books, award-winning audio plays and short stories. A member of The Society of Authors, the Scattered Author Society and the Dennis the Menace Fan Club, Cavan lives near Bristol with his wife, two daughters and an inflatable Dalek named Desmond. Brandon T. Snider has authored numerous books based on Cartoon Network favorites such as Adventure Time, Regular Show, and Uncle Grandpa. He has also written for and appeared on Comedy Central's Inside Amy Schumer. Brandon lives in New York City, where he's a member of the Writers Guild of America.

My son loves this book he's 6 years old. He reads this every night as his bed time stories. He usually doesn't want to read much. But this do encourage him a lot. I plan to buy other sets when his done with this.

My 6 year old has recently discovered Skylanders. I bought this a gift for his promotion to first grade. He LOVES it! The reading is a bit advanced for him so we read it together. I let him read words that he recognizes. I'm happy about this because he enjoys math and science more than reading.

Five stars because it makes my kid so happy. I'll have to buy an updated one later I'm sure (this one doesn't contain the more recent Skylanders), but such is the nature of these kinds of things. If your kid is as obsessed with Skylanders, it's worth it.

My son saw this in a flyer for his school book fair and decided he has to have it. He ended up choosing something different, but later on decided he still wanted it. This one is the same great quality and a better price. He loves sky landers, loves the book and I love that he likes to read so much and given the choice for his birthday he choose books.

It is great. Lots of detail and information on Skylanders. My 7 year old Granddaughter is into Skylanders with a passion and it was great to be able to give her this very colorful and informative book.

My son loves this book. We started playing and watching Skylanders this year and we enjoy flipping through the pages and reading about the characters. I can see this will provide good motivation for him as he develops his reading skills.

I bought this book so I could have a meaningful conversation with my grandson (8-yrs), and to encourage him to read more.

Not complete. Does not include listings for Light or Dark elements, even though those elements have released sets/figures & at least a couple more figures on the way. It's strange because this book has entries for unreleased figures for other elements. Otherwise a nice book.
