great help for the kill trip

Hi, the maps was a great addition to the trail descriptions provided from trekking agencies and in various books. It does not show all the campsites on the map. The map would be even better if it was bigger and made of tougher material. Nevertheless, it is a small price to pay when you are embarking on such a big adventure. We did the Rongai route - modified. Simba, Kikeleua, Mawenzie Tarn Hut, Third Cave, School Hut and Horombo. Thus, the map came in real handy when we went from Mawenzie Tarn Hut to Third Cave (there is no real trail here).

I was not able to find any other Kilimanjaro Map that contains topographical features. This map is quite detailed with most of the camps and other important features. It also includes a fair amount of GPS coordinates. I hope the next edition is printed on stronger map paper that will better hold up to wind and rain, but for now this map far exceeds the others of Kilimanjaro that I own.
