Customer Reviews

The book was very concise, easy to understand, with ample practice questions. It covered everything needed to do well on the exam.

This book was very helpful. I am taking the Teas version 6 tomorrow and feel prepared for it. I bought the online practice test through the TEAS website and it is very similar to those that are found in this book.

Very helpful, arrived on time, stayed to the point, easy to understand. Was as described and well worth the price

I didn't really study that intensely for the TEAS but I looked over this book a few times and felt that the questions were very VERY similar to ones on the actual test. I have been out of math practice since high school, so 8 years ago, and the Math section of the test was my highest score of the 4 parts. I'm more so rating the test as opposed to this book, the test had some very complex questions for the reading and science sections. I felt that the science section in the book was very similar to everything I had learned in anatomy and physiology, and some chemistry. It was all pretty basic introductory stuff, except for the reading/grammar sections. I felt that was more advanced than a College level comp class tends to be. I didn't focus too much on the reading section of the book because normally that's my strong subject so I neglected it. Overall, this book aided in my success with passing the TEAS and I've borrowed my book to two other people so they could have some study material.

Somewhat helpful....have not taken the test yet to know how helpful this book is.

Good review text for the TEAS 6 Test! easy to understand and very straight-foward!

Really good book, very easy to read and it explains everything very clear

When I write this review, I haven't taken TEAS yet. I want to comment a bit about sciences sections. Compared to TEAS V, this book has so little information in A&P, microbiology, chemistry, and bio. I basically had to open my class notes, and watch youtube to understand it in more details. Because of this, I had to buy Memometrix TEAS which cost me another \$40. Math, English and Reading sections is straight forward.
