Traditions & Encounters: A Brief Global History Volume 2

Synopsis

NOTE: This book is standalone book and will not include an access code. Based on Bentley and Ziegler's best-selling, comprehensive survey program, *Traditions & Encounters: A Brief Global History* provides a streamlined account of the cultures and interactions that have shaped world history. A focus on the human experience helps frame the broad scope of world history into a clear and concise learning experience for students. Bentley's engaging narrative is available as a digital SmartBoo, a personalized eBook that enhances understanding by asking students to demonstrate comprehension as they read. It is also supported by engaging digital tools, such as interactive maps, that encourage critical thinking and retention of key course concepts.

Jerry H. Bentley was professor of history at the University of Hawai'i and editor of the *Journal of World History*. His research on the religious, moral, and political writings of Renaissance humanists led to the publication of *Humanists and Holy Writ: New Testament Scholarship in the Renaissance* (Princeton, 1983) and *Politics and Culture in Renaissance Naples* (Princeton, 1987). More recently, his research concentrated on global history and particularly on processes of cross-cultural interaction. His book *Old World Encounters: Cross-Cultural Contacts and Exchanges in Pre-Modern Times* (New York, 1993) examines processes of cultural exchange and religious conversion before the modern era, and his pamphlet *Shapes of World History in Twentieth-Century Scholarship* (Washington, D.C., 1996) discusses the historiography of world history. His interests included processes of cross-cultural interaction and cultural exchanges in modern times. Herbert F. Ziegler

is an associate professor of history at the University of Hawai'i. He has taught courses on world history for the last 19 years and is currently the director of the world history program at the University of Hawai'i. For several years, he also served as the book review editor of the 'Journal of World History'. His interest in twentieth-century European social and political history led to the publication of 'Nazi Germany's New Aristocracy (1990)'. He is at present working on a study that explores uncharted aspects of German society, especially the cultural manifestations of humor and satire in the Nazi era. His other current research project focuses on the application of complexity theory to a comparative study of societies and their internal dynamics.

Heather Streets Salter is Associate Professor of History at Washington State University, where she teaches World History at the graduate and undergraduate levels. She received her Ph.D. in the History of the British Empire at Duke University in 1998. She is director of the WSU History department's World History Ph.D. program, and director of Washington State University's undergraduate World Civilizations program. She served as an area editor for the Oxford Encyclopedia of the Modern World, published in 2008 by Oxford University Press. Recent publications include *Martial Races: The Military, Race, and Masculinity in British Imperial Culture, 1857-1914*, published in 2004 by Manchester University Press. Her forthcoming book (co-authored with Trevor Getz), *Imperialism in the Modern World*, will be published by Pearson in 2010.

This textbook was required by my history class. The reason for my 4-star review is because the online companion for this book is great! Not only do they have practice questions to make sure you understand the content, but it has an online version of the textbook with highlighted portions to show you the most important information from the section. If you don't buy this book new, the online companion is \$75 for one year. I no longer use my hard copy because of the online companion. Unless you really like having a hard copy or it is required that you have the physical book for your class, forgo buying this and just purchase the online companion. All in all, the text in the book is simply put and easy to understand. I wish they had included more details about certain parts of history since I feel some important events were left out.

I'm glad I was assigned to read this book for class. It was very brief of our events, but it didn't seem to leave out any major event. It included the perspective's of multiple cultures towards each other and stressed on the importance of past historical events trickling into today.

It's a very general book and lack specification which might develop a wrong message and idea on

history context.

As a non-traditional, older student I found this book to be very easy to follow and well written. Using this book in my World Civ course made history more interesting than it has ever been for me. Very good book and well worth the money.

worked for class

Thank you.

Great

This is the book I needed I just did not know it was the binder version. It is very good though.
