Nature's Splendor Stained Glass Pattern Book

Synopsis

Perfect for a variety of skill levels, this collection presents an impressive array of beautiful stained glass patterns. Images include a tropical sunrise, Tuscan vineyard, and New England country church, along with ocean waves, a graceful crane, and other animals, plus abstract landscapes and seascapes. Ninety different motifs, rendered in crisp black and white, offer an array of options for stained glass projects, including window panes, lampshade panels, light catchers, mobiles, and more. Artisans can easily reduce or enlarge each pattern to adapt the designs to countless creative projects. An excellent resource for the creation of elegant stained glass art, this book also offers design inspiration for print, textile, needlework, and other craft projects.

Best Sellers Rank: #632,845 in Books (See Top 100 in Books) #47 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Glass & Glassware > Stained Glass

Customer Reviews

M. S. Hanson has been working in and designing for stained glass as principal artist of a studio for over 30 years. A Benedictine Oblate, she holds a Bachelor's degree in Arts and Accounting from Johns Hopkins University and a Master's degree in Art & Religion from Lancaster Theological Seminary. With her sparkling patterns, she has raised the craft of stained glass to the level of fine art.

I don't usually use someone else's pattern or re-create suggested projects in books because I feel it's not my own. But I LOVE this book! it gives me great ideas and it also helps to understand how to break up animals to show more natural lines and movement. I use it for mosaics rather than stained glass. With patterns as beautiful as these I might just have to invest in a grinder!

Very nice patterns. Very detailed and nice variety. The book also includes the finished pictures of the patterns, which is nice, since you can go by that for colors, and know what each pattern will look like as a finished product. Would highly recommend this book for anyone interested in stained glass.

I absolutely love the patterns in this book! There's a wide variety and they are well represented with color plates of each finished pattern. Be forewarned, these patterns are not for beginners, but something to aspire to.

Great help in making a quilt

Too many parts to complete these in my lifetime. I need more elegant and less busy patterns using a LOT less solder. I did like the separate pics with suggested use of colour.

Some intricate patterns, I like a challenge.

a

Not as many patterns as I had hoped, but the book does include some attractive patterns.
