Customer Reviews

My kids were growing up in the 90's and we watched their television shows together. After homework and chores were done, they each got to choose a show to watch and it was pretty much always a show on Nickelodeon. Seeing "The Splat" coloring book show up was a trip down memory lane for me. Almost all of our favorites are in the book including: Real Monsters, Angry Beavers, CatDog, Hey Arnold, Ren and Stimpy, Rocket Power, Rocko's Modern Life, Rugrats, and the Wild Thornberrys. The book includes 47 designs. There seems to have been a team of illustrators as there are several styles. Some of the designs have thicker lines and a more open feel while others have thin lines and are considerably more detailed. I like all of the various styles and levels of detail as it makes the book that much more fun to color. This is what I experienced while coloring in this book and testing the paper with my coloring mediums. I will list the coloring mediums I used for testing in the comments section below. These are also the materials I use for most of my coloring. 47 Designs based on Nickelodeon cartoon series from the 1990's Printed on one side of the page with a quote on the back of the page Paper is heavyweight,

white, slightly rough, non-perforated Glue Bound Most designs merge into the binding area Book opens fairly flat for coloring by breaking or creasing the spine heavily. Alcohol-based markers bleed through the paper. I suggest using a blotter page of card stock or several sheets of paper to keep ink from seeping through to the pages below. Water-based markers, gel pens, and India ink pens do not bleed through the paper. Colored pencils work very well with this paper. I got great pigment from oil and wax base pencils. I was able to layer the same color for deeper pigment, layer multiple colors, and blend easily using a pencil style stick blender.

As many other reviewers mentioned, the pages do come out easily (held to the binding by light glue). But I actually kind of like that because I wanted to take them out anyway. The unfortunate thing about the pages pulling out though is that on the back of each coloring page is a quote related to the next coloring page (as in, if you pull out a "Hey Arnold" page, it may have a quote from CatDog on the back). The pages are nice and thick though, so they hold up great whether you are using crayons, colored pencils or markers. The coloring page images are cute and complex, good for adult coloring. The scenes are fun and nostalgic.

I love this coloring book!! So fun and relaxing to color after my baby and toddler go to bed. I love that its all the cartoons I used to watch as a kid. The book is bigger than I thought it was going to be, which was a nice surprise. Overall a great purchase and I'm thinking about getting some of the other ones they offer as well like the spongebob one....I know it will be good quality!

Love the idea of this Adult coloring book, 90's cartoons but a bit disappointed that there's a lot of blank pages (every other page). Also some of the pictures are repetitive & just a cluster of the same photo (picture shown). With that said I did not return the book because there were some fun pictures to color.

This coloring book provides the ultimate nostalgia. I absolutely love it. I don't have any problems with bleeding, and the pictures are spot-on. So fun for a 90s kid! ã ã ã ã

Great book- hits all the nostalgia points, and has some really great pages to color. Good mix of fine detail and 'chunkier' drawings, and heavy paper. All artwork is one sided- backs have a quote from the characters. I'll update with some completed pictures, but out of the box I'm very happy with the style and quality of the book.

It's perfect! I love every page and can't decide where to start first! I think I owned every "Rugrats" coloring book there was as a kid (thanks mom) and I'm really excited to have a coloring book with my favorite Niktoons. Even "Ren and Stimpy". Being an adult is so cool.

Absolutely love this book! It has quite a few pages and a lot of detail. :)
