## Customer Reviews

I'm very upset. The book could be great, but I don't have chapters 9-12, which includes neuro and I really bought this book to enhance my neuro assessment skills. I purchased the Kindle version, and no matter how many times I delete it to re-download, it doesn't give me those necessary chapters. Very disappointed. I have severe made incredibly visual books. SOMETHING MUST BE DONE!

Great book. Well written 100% with extreme satisfaction.

Perfect!

A Very Good book for any nursing student, I highly recommend it.
