Customer Reviews

This is a practical, actionable, and approachable book that is designed for people who have "lives". So many other books in the space are written by 20 somethings with no kids and nothing but free

time on their hands (I'm looking at you Ms. Kondo). But, for those of us with jobs and kids and schedules packed end-to-end, spending 15 minutes folding a t-shirt to sit on end is just not going to happen. This book is different. The author understands a normal life because she herself has one that she juggles too. This book is written from that perspective and understanding. It's the sort of thing that you can pick up, turn to just about any page, and find at least one easy organizing task to make your space a bit better using the time and energy you have at the moment. No matter if that is two hours or thirty seconds, there are dozens of tips and ideas to fit either. The idea that making just a little bit of progress is far more valuable and rewarding than making none at all. Also, it is a start
• thirty seconds here and 15 minutes there can clean up and organize a whole room. Seriously, get this book, If you even manage to do five small tasks it suggests it will be money well spent.

This book is helping me have a more organized house and not waste so much time looking for things. Ellen

This book is perfect for me! I love to organize and I've been a big unclutterer since I was a kid. For years I was on top of my uncluttering game! Now I've got two kids under 4 and my organizing system has completely fallen apart. This book helped me set some manageable goals to tackle some of the chaos in my storage room. I highly recommend this book for anyone who needs a little help figuring out how to make an efficient use of their time! Here are some before and after pictures of my kids' clothes:

Got some useful tips. Found it helpful.

Good tips for tasks of any segment of time one has available.

A great book. things you can do in 30 seconds , 1 minute , many tips!

Very helpful.

I still can't do it, but it has great advice if you can make yourself follow it.
