Customer Reviews

Bought it as a gift for my Bible-studying husband. He requested this!

Really excellent summary!

Another person had this book and I wanted one. It is interesting to be able to read each gospel in one book. I could or would not do it from the Bible. I think I would lose one reading in my mind as I worked on finding another. The references are great and informative.

An excellent companion book for college course in Historical Bible Literature. Written to give a side-by-side review (comparison) of the Four Gospels and evaluating why the view points were written with different audiences in mind.

Used the book for a study during lent and worked out great.

A academic treatment of the Gospels with each Gospel viewed side by side so one can compare

the writings of all the Gospels on a particular subject or story. This book is not an easy read. However, the material is well presented and logical once you grasp the outline and flow of the book.

I bought this for school, and it is actually a wonderful account of the differences between the gospels.

Amazing reference! Use in preparing 8-hour theology of parables class I am teaching this year.
