Before writing about home improvement, Joseph Truini worked as a remodeling contractor, cabinet maker, and union carpenter. He has written extensively for magazines like *Today's Homeowner*, *This Old House*, and *Popular Mechanics*. He also is the author of *Building a Shed* (Taunton Press, 2003, 2009, 2015) and *Installing Floors* (Taunton Press, 2010).

Its ok!! Wish it was more blue plans!!

Good information.

I am building a new shed. Haven't do so in over 20 years, so I wanted to see what kind of ideas I could find. Very good instructions, and lots of pictures along the way. I plan to incorporate some

elements from this book and the "Sheds: The Do-It-Yourself Guide for Backyard Builders" book, making a unique product. For some reason, I like the writing a little better in this one.

great ideas inside

This book breaks down building a shed into pieces that includes tips from the experts so you don't repeat their mistakes. I'm planning a quality shed and I don't want waste my time or money. This book will pay for itself before you even begin. There's nothing like the combined knowledge of all these experts laid out in an easy to read format.

Used this to build to small shed. Great tips.

not for first time shed builders

I am a beginner in this field and this book is a fantastic resource. It really goes over ALL that you will need to build a shed. Just expect to pay more for decent plan; that said, the 'how to' is all here.
