# Within Reach: My Everest Story (Nonfiction)

## Synopsis

In May 1996 the media scrambled to document the gripping story of sixteen-year-old Mark Pfetzer's expedition to Mount Everest. Not only was he the youngest climber ever to attempt the summit, he also witnessed the tragedy documented in Jon Krakauer's *Into Thin Air*, in which eight climbers perished in a sudden storm. *Within Reach* is Mark's extraordinary account of this experience and of his triumphs over several other challenging peaks. At once triumphant and tragic, this story will be an inspiration to climbers, athletes, and armchair enthusiasts alike.

## Customer Reviews

Although *Within Reach* is targeted at young adults and written in a young man's voice, the writing (by coauthor Galvin) is engaging, and the story is rewarding enough to interest any mountaineer. Pfetzer, 18 at the time of publication, describes his summits of a number of peaks worthy of a climber twice his age, including HuascarÃn, Aconcagua, Ama Dablam, Kilimanjaro, and Cho Oyu. He tells at length of his two expeditions to Everest, where he reached 25,000 feet from Tibet and 26,000 feet from Nepal. Purists may sneer, as all these climbs were commercial, guided expeditions--but heck, the kid was only 14 or 15; how else would he get there? And, though a paying client, he was unusually well prepared: a karate black belt (at age 11), courses in NOLS (National Outdoor Leadership School) and high-angle rescue, full EMT (emergency medical technician) training (even though he was too young to be licensed), in addition to being in top physical condition, which he rigorously maintained. Pfetzer has regularly sought out older, more

experienced mountaineers as mentors--somewhat rare for a teenager--and thanks them publicly for their teaching and wisdom. His love of climbing and determination to succeed are inspirational for all ages. --Donna DeShazo --This text refers to an out of print or unavailable edition of this title.

In May 1996, Mark Pfetzer at age 16 was the youngest climber on Mount Everest to reach 26,000 feet, and his gripping autobiography focuses exclusively on his mountain climbing achievements. Recounted in diary format, Pfetzer's dense but taut story opens during the 1996 Everest expedition, then jumps back to a 1992 advanced camping trip, when his passion for climbing first ignited. An advertisement for a mountaineering trip in Nepal sparks his imagination and determination (he must raise \$5000 for the excursion), and the experience starts Pfetzer off to the farthest (and highest) reaches of the globe, on to Peru, Ecuador, Tanzania and finally to Mount Everest. Even though he fails to reach the summit on either of his two Everest trips (the second of which takes place during the fatality-filled 1996 expedition described by Krakauer in *Into Thin Air*), Pfetzer does set an altitude record for his age. While some of his inspirational comments about going for one's dreams come off as a bit condescending, and a few of the descriptions and metaphors have an adult flavor, readers are sure to be fascinated by the suspenseful storytelling and the wealth of insider details. For instance, at high altitudes climbers can break a rib just by coughing; those who reach the summit often urinate on the peak to commemorate the event. Even readers with no interest in rappelling will likely be swept up in the details of the people and places Pfetzer meets in his travels. A glossary and a chapter by chapter "Cast of Characters" will help readers unfamiliar with the world of climbing. Ages 10-up. This is a terrific book for teens, young adults, and, yes, adults about a Rhode Island teenager, Mark Pfetzer, who makes his dreams come true. The book is written as if it were a personal journal, and in it Mark takes the reader on a journey into his young life. He shares with the reader how his interest in climbing developed, as well as his early climbing experiences. Mark, mature in many ways beyond his years, is not your typical teenager. Clean cut, intelligent, fit, and not given to peer pressure, he is a bit of a loner with a dash of entrepreneurial flair. As his climbing experience increases, so does his desire for snow capped peaks. This desire motivates him to get sponsors for his world wide travels that take him to the vast mountainous regions around the globe. Mind you, he begins his world wide travels, unaccompanied by his parents, at the ripe old age of thirteen. While one may question the wisdom of letting someone so young travel around the world to do high

altitude climbing, it does not diminish the pleasure one derives from reading about a young person who derives such joy from his travels and climbing. While at times Mark seems a little full of himself, one must remember that, notwithstanding his achievements, he is still a teenager, and, like most teenagers, he has his moments. Still, his chronicle makes for a very interesting read. His endeavors on high altitude peaks, including Everest, are noteworthy, notwithstanding that he climbed with guided expeditions. While towards the end of his journal he may appear to be suffering from trophy mountain madness, it does not diminish the palpable love of climbing that permeates the pages of the book. Mark is, without a doubt, a son of which any parent would be proud. I am sure that he will continue to live his life to the fullest. I look forward to reading about any future adventures that he may commit to paper. Dream on, Mark, and may all your dreams come true.
