Customer Reviews

I found book useful on recent trip to Mexico. The book contains separate sections that apply to a variety of subjects and activities that assist in being able to focus on what you are trying to express to someone who may speak little if any English. The book also assists in helping you express the Spanish correctly

Spanish has always been a language i wanted to learn, although i'm not too good at it.let's just say i'm a newbie when it comes to speaking spanish hence the reason i bought this book. i really just wanted to get myself familiar with the common phrases of the language and this book was perfect for that. if you're in the same situation like me where you want to learn spanish but have 0 knowledge on how to go about doing so then this book will be a great fit for you.

A complete guide to learning Spanish. In my college days, Spanish was a part of the curriculum, it was one of my least favourite subject. I thought it was so boring that I skip class most of the time. Thanks to this book now it is much easier to understand and to learn to speak proper Spanish. Good job

This book is very informative and straight to the point. It gives you some of the best and most common Spanish phrases that real people use everyday unlike some of those other Spanish phrase books online that are just cluttered with filler information. Great book for those just beginning to learn Spanish!

This book contains a great list of common spanish phrases. My son found this really useful for his spanish entrance exam since it contained many phrases useful for a natural conversation. I think this is pretty useful for travel as well since itÃ¢ÂÂll be an easy way to learn quick conversation words.
