## Synopsis

Improve your Italian reading, pronunciation and listening skills. Make learning new vocabulary so much easier with 10 fun and engaging Italian stories. The Italian audio is FREE! Reading and listening to short stories is an effective and enjoyable method to learning Italian. For those of you who can't just slip away from life, travel to Italy and immerse yourself in the language in order to learn it, this is your solution! Reading and listening to native-spoken Italian stories is the next best thing. You have at your fingertips the written word AND an accompanying audio recording that allows you to: Gain a greater vocabulary that you can use immediately, every day. You will add 1,500+ Italian words and expressions to your repertoire through the encounter of descriptive sentences and casual conversations woven throughout the stories. Sharpen your comprehension of the spoken word by listening to a native Italian speaker. Learn how to pronounce Italian words properly by comparing the written word to the audio recording. Familiarize yourself with a wide range of grammar structures and put them to use today. Avoid the monotonous task of memorizing grammar rules. How awesome is that?! Each story is recorded by a native Italian speaker: At a natural speed for learners to understand what is being said. You receive 90 minutes of MP3 audio recording! There is no need for a dictionary. Each story is broken down with an Italian and English glossary that introduces you to the words and phrases you might not understand. This comes in handy because there is no need for the irritating process of flipping pages, continually searching for definitions or translations. A vocabulary recap at the end of each chapter allows you to review what you have read and listened to so you don't forget the essential words and expressions taught throughout the lesson. All stories are written using vocabulary that you could easily use in your day-to-day conversations. With this book and accompanying audio, you can start improving your Italian today!

Languages are a hobby of mine, because let's face it; in today's world you aren't going to get very far unless you are multilingual. Italian Short Stories has introduced me to an interesting approach to learning a language. With each story being written in Italian, it gives you the ability to fully immerse yourself in the language. Generally we are taught that immersion is one of the best ways to learn, and coming from a military background with extensive global travel, I have found this to be true. The Pimsleur approach has always been my gold standard for learning to speak a new language, but audio lessons don't assist in reading and comprehension. This book fills that gap perfectly. And the author is spot on when saying that the thrill that comes from completing a story is amazing. Not only has my vocabulary increased by leaps and bounds, but my understanding of syntax and sentence structure is now much closer to that of a native speaker. The stories are short, maybe two pages long without the vocabulary assistance, and the summaries and small questionnaire at the end of each are great tools to check your progress. The MP3 included is a wonderful boon to anyone who needs assistance with pronunciation. Overall, I would definitely recommend this book to anyone looking to supplement their language studies.

I absolutely loved this book. I studied Italian briefly last year but with my hectic life to haven't had much time to practice. I'm very rusty. This book was great because the stories were short but contained a lot of great vocabulary words. I like the fact that the glossary was placed within the stories and then at the end of the stories as well. The Sunday being in Italian and English helped as well. I felt like the words were really ended in my memory when I finished. I suggest all beginner learned read this book and download the mp3 to hear the correct pronunciation too.

This book offers so many features. Everything from the audio mp3 to a translator. I have been interested in learning a new language for a long time. I did take an Italian class in school but never got a handle on it because of lack of time and resources. This book lets you work at your own speed, and you can go over it as many times as you need. I also like that I can highlight specific word and sentences so I can get them translated or just mark them and come back to it. I have learned some important and common Phrases that I can practice in my everyday life. Great read!

The book was interesting and it was very interesting and not difficult book for beginners. It was good that after every page phrases are in bold and there is a translation. It will help to remember new words and phrases. So I really advise you if you are beginner in Italian to read this book.

This book with short stories in Italian is perfect to people that have a little notion of the language, and want to improve both listening and reading skills. I learned new words, phrases, correct conjugation. In my case, I was really impressed to be able to follow the stories even after years without practicing. The author was careful to provide the translation in English as the stories follow. Another good thing is the possibility to listen both female and male voices as well. The voices sound clear and help the stories to be nice and easy to follow. The repetition of words makes us reinforce/recall the definition and its usage.

I bought this book because it said free audio...it was such a pain to download the audio I gave up!!!

It was pretty but it takes time and practice

I like it a lot
