Customer Reviews

All the guides are more than informative. They include history, geography, geology, recommended sights and ratings on these sights. Now they even include suggestions for places to stay and/or eat. After purchasing and reading this guide I was better able to budget my time and choose an itinerary that satisfied my interests. In many cases, the Michelin Green Guides are all you need.

Very helpful.

We are planning a trip northward for this spring. This was quite helpful in finding places to go and stay.
