Dr. Mariza Snyder is a passionate functional wellness practitioner and public speaker, committed to inspiring people to live a healthy and abundant life. She graduated Cum Laude from Life Chiropractic College West in 2008. She has a background in biochemistry and certifications in nutrition and aromatherapy. For the past eight years, Dr. Mariza has educated women across the nation with her expertise in holistic medicine and nutrition. She serves as an educator on topics relating to women's health and she's an author of five nutrition books: bestseller, The DASH Diet Cookbook, The Low Glycemic Index Slow Cooker, The Antioxidant Counter, The Water Infusion Detox Book and The Matcha Miracle. Check out her website, drmariza.com, for women's health tips, including recipes and self-care rituals.

This book is so full of knowledge it makes me not want to put down. It is easy to read and understand. It's not technical and it gets to the point and explains it very well. Thank you for helping me gain my knowledge and bettering myself to be able to share with my friends.

I have read a good number of essential oils books, and I can honestly say this is my favorite. Why? It's everything I need in a beautiful book that I have at my fingertips whenever I need it. It has diffuser blends, roller bottle blends, spray bottle blends, cleaning recipes, and more. My favorite thing about this book, though, is that Dr. Mariza spent the time to share how to dilute oils for children

(why EVERY essential oils book doesn't at least have a disclaimer on this is beyond me). People NEED to know that oils can be used with children, but not in the same way we use them as adults. In addition, my son has absence seizures, a mild form of epilepsy. Before this book, I had not known of the oils to avoid if one has epilepsy, so THANK YOU to Dr. Mariza for including information like this in this book. If you are looking for an incredible resource that isn't overwhelming, but still filled with excellent information, get this book. Whether you are new to oils or a pro, this is something you should own. You will love it.

A great guide for everyday natural solutions using Essential Oils. Using the information in this book will help make our homes safer by eliminating chemicals, making our families healthier. This is good for our environment! I like the information regarding the information on the oils so we know the countries of origin. Most important are the cautions for children and pregnant women, probably the most important info in this book! Thank you Dr. Mariza. Connie Holden

I have to understand how something works to fully buy in; Dr. Mariza's explanation of how essential oils interact with your body really helped me. Also, I'm not much of a DIY person, so I feared I would not want to do these recipes. But they are really simple! I also love the in-depth explanation of the oils; help me choose and use!

I identify with the title of this book. I am a mom of three. I have been introduced to a natural approach to life. I dove in head first to using oils and have had so many questions about products and alternative uses for many of life's ailments. This book provides answers to my questions. I love how easy of a read it is and it is jam packed of valuable information. My families life has completely changed because of many small decisions that create long lasting vitality in our life. Thank you Dr Mariza for empowering me through this book to continue on a healthy natural path for the future of my family and their children too. Tons of good stuff in here! A must have! In fact if you looking for a great gift, what better gift than the powerful knowledge found in this book!

One word: DILUTIONS! Oils are so wonderful but with kids they need to be diluted and we don't always hear about it and I'm always wondering what's best. Dr Mariza gives real amounts! Thank you! I'm so excited to delve deeper into this book. It arrived this week and I've been so happy just skimming through it. Thank you!

For years I've wanted to "Make the switch" from potentially dangerous "chemical based" household items to more natural products. The problem was always what to get, where to get it, how to use it. It seemed like more pain than it was worth ~ until a friend handed me her Kindle and I started reading... Reluctantly at first, but later - thought - wow, I can do this, and how much better could it be. Since making the "natural shift" in food, and cleaning up our diets, we've felt better, trimmed inches and pounds and are now ready to take this next step. Best part - we've found oils that can provide a wonderful aroma that DONT cause the crazy allergy reactions my daughter and husband would have to perfumes or air fresheners. Who knew!

I originally ordered this book for my Kindle. It was really great to read it through on the Kindle. There is so much valuable information included in this book that you will want a hard copy that you can highlight and make notes in it. I especially loved chapter 7 which talks about aromatherapy , blends for moods, focus and purifying. This book gives the average person with no knowledge about essential oils the tools needed to get started using natural solutions in their homes and lives. For the person who has previous knowledge of aromatherapy and essential oils it also is of great value with tons of recipes, blends and loads of information that can be shared. This book will be one I reference frequently!
