## Synopsis

Streetwise Venice Water Bus Map - Laminated Water Bus map (Vaporetto) of Venice, Italy - Folding pocket & wallet size metro map for travel

One of the best ways to see Venice and travel around Venice is by water. The Vaporetti or water buses are the public transportation of Venice. Sooner or later, a traveler to Venice will eventually find themselves on a Vaporetto. So for the enlightened traveler, who seeks unique travel experiences and anticipates the crowds of Rialto and San Marco, the STREETWISE Venice Water Bus Map is the perfect tool to help navigate in and around the island of Venice and throughout the Venetian Lagoon Islands. This pocket size trifold laminated map has all the important Vaporetto lines drawn to indicate year round routes and summer only lines. Really, what could be more practical and romantic than to travel early evening on the number 1 Canal line as the lights begin to turn on in Palazzos along the Grand Canal. Because Venice is built with small narrow streets which cannot provide you with an angle to see entire buildings, there are views from the Vaporetto that beats anything you can see on land. San Maria della Salute at the juncture of the Grand Canal and the Fusina Canal is a perfect example. All lines are color coded and each Vaporetto station is labeled by name and route number. These features enable the visitor to distinguish between routes which zigzag between as many as 20 stations from the circular routes which run in two directions. Our pocket size water bus map of Venice is also laminated for durability and accordion folding for effortless use. The STREETWISE Venice water bus map is one of several detailed and easy-to-read maps designed and published by STREETWISE. Buy your STREETWISE Venice water bus map today and you too can navigate the Vaporetto like a native. ## Customer Reviews

I bought this map because the last time I visited Venice (years ago!) there was no map. It is now very tourist-friendly and signage is good, The water bus or Vaporetto map is readily available in Venice when you buy your pass. The watercraft routes change slightly to accommodate need, so I think that a map gets outdated. This map is too small to read and was not helpful on my recent trip to Venice. Buy a map in Venice and buy it where you get your Vaporetto pass. And don't buy one trip at a time, get the full 24 hour pass. You will understand why.

Don't go to Venice without this little map. It's super small, folds into thirds and fits in a shirt pocket. Even though we rode the vaporettos only two days, it was great to have a quick look at the next stop and to plan where we could get back on, etc. I order the Streewise Venice map (also perfect!) and this Water Bus Map is included on the larger map. That said, this is still super convenient to just pull out of your pocket for a quick glance. On my way out of town I gave this map to another couple in the train station just arriving in Venice.

When in Venice, it's often difficult to get a vaporetto map. At the stations, one can purchase a map that unfolds to about the size of 2 newspapers. We learned the system ok by ourselves, but purchased this for family members that went to Venice a few months later. They said it was invaluable to have a small folding, durable map that points out the routes and stops. Great way to see Venice.

This is the size of three business/credit cards which has crease lines for folding. So its small enough to fit into your wallet. But as far as the map goes it looks like the details are perhaps too fine to read clearly. I'll be bringing it along on my trip to Venice, and can report back after the trip. However, I have the feeling that there would be a vaporetto map readily available from Venice? I'll find out and update this review. Otherwise, this item is inexpensive so its easily recommendable!

This seemed like a great idea and would be if it rained. But I found the Venice pop up map to be my daily go to map in Venice as well as my Top 10 Venice book which comes with a laminated

map. Nicely constructed but you can get the same map at your hotel in Venice.

We have purchased other Streetwise maps and have found them very useful and sturdy. This map is so small in size that it is very difficult to read unless you have a magnifying glass available. I will locate a small one to take on our trip to Venice so I can use the map.

The map is very detailed which is good. I never used it because the print was way too small to read when I was out and about. But I still have it; it is a good reminder of Venice and I can point things out to people.

This waterway map was too small to help us navigate Venice, which is impossible to navigate even under the best of circumstances. Any info this provides is posted next to the water taxi stations on large signs. The only use I got from this was to fold it and use it to shield the sun from my camera lens while shooting in full daylight.
