Paul Tobin is comic book writer whose best known works include: The Age of the Sentry, Marvel Adventures: Fantastic Four, Marvel Adventures: Super Heroes, Marvel Adventures: Spider-Man, Colder, Plants vs. Zombies and Bandette.

Another cute graphic novel from Plants V Zombies. This is cute and illustrated with great detail, but I just didn't like the content as much as Petal to the Metal. The seller is great and processed with

lightning speed.

My son loves these books! He has had trouble reading and it has been the perfect transition from picture books to chapter books and amusing too, he giggles all through reading it and has to show me different passages.

My kids love to read when this is put in front of them.. I like to see them enjoying a book rather than being forced to read-- they pick these set of books up at any point in the day just because they want to..

My son loves all these Plants versus Zombies books. I'll probably buy more as they come out.

Paul Tobin has become my 8 year old son's favorite author. Even after reading these graphic novels dozens of times he still finds them funny and engaging.

My 9 yo daughter loved this book. She read through it in one sitting.

12 year old grandson loved it.

Enjoyed the book!
