This Bible is arranged and translated in a way that will allow kids to study on their own or with family and friends. Also, with the many features of this Bible, kids will be able to read about certain people more in depth, apply Biblical principles in their lives, and start thinking about theological issues. This is a great Bible for any child, whether they have been raised in church or are just beginning.

We love it! We read it as a family every night. We each read a few verses while the other 4 follow

along in their own copies. It has brought us so close as a family and given up wonderful conversations. Yes, it is broken down in plain English, which is sometimes too broken down. With that being said, for a child, this is great. They can study the languages of the Bible when they get older and translate it from Aramaic, Hebrew, and Greek, but for right now this is the level they are living. We love the "I Wonders." They spawn our own I wonder conversations. We read in the morning followed by prayer and in the evening with prayer. I tell the kids we start our day with God, end our day with God, and every moment in between. They love it and we are blessed as a family because of it.

I actually use this book when I do Prison Ministry as it puts everything in simpler terms, so that the prisoners can grow into their understanding of Christ. Sometimes an adult version of the bible is a little too difficult for some of them to grasp the ideas and concepts when most of them have no background in Christ or the church. Perfect starter bible for kids and for those of us ministering that need to break down words and concepts into simpler themes

Sin loves it. He's had it for prob three years. Very informative and practical.

We use this Bible in our Sunday School classes, ages 7-11. It is easy for them to read and understand, and has many useful "helps" and answers for inquisitive kids. Unfortunately this edition is now out of print by the publisher, Tyndale, so I have had to order from various sources who are listed on . I even bought one for \$1.00! New ones from the publisher are outrageously priced--over \$38.00--but slightly used ones are reasonably priced, especially for those of us on a Sunday School budget! I wish the publisher would bring them back--they have hard covers and can take a lot of use.

Bought this for my children to use for bible class during homeschooling. It is exactly what I was looking for and they really like it!

Christmas present for grandchild

I expected it to be more animated it seems to be for an older child however it's still a great product and came in a timely fashion thanks a lot!!!
