Hetalia: Axis Powers, Vol. 1

Synopsis

During World War I, gruff Germany finds Italy hiding in a wooden box of tomatoes. Germany takes Italy as prisoner, but instead of war-like interrogation, Italy becomes more of the nuisance and unwanted guest. World War I quickly comes to an end, but World War II is right on its heels! This time, Italy tries his best to become friends with Germany. They soon befriend Japan, and the three of them form the Axis Powers. Meanwhile, America, who loves heroism and hamburgers, tries to form a treaty, as Great Britain reminisces about when America was his loving child.

I've always considered myself as a great fan of this work! I've been and I'm still following this series of Hetalia and it hasn't been until now that I decided myself to buy the manga. I looked forward to have the first book of this series and woah! I simply LOVE it. I don't mind the kind of way that the author used to do this manga. I mean, though it's sketchy it's kinda cute! It's a lot worked, and it's so funny to read. You can enjoy a lot reading it and knowing all the characters bit by bit. I like the idea of the countries being representated, it's a nice idea to more or less explain some things of the history (BUT, obviously it's not all clear, you shouldn't take this as a book history). I recommend this to anyone who wants to laugh a little with trivial sometimes non-sense humor but always associated in a comical way with countries history and culture. (But stay back if you're a very sensitive person about your country) In a few words, so happy with it. :)

Got this as a gift and just like the rest of the books, she loved it.

Very funny manga! I've seen the anime tons of times and even rewatched more than twice so I was really excited when the mangas had arrived to my house. They looked so good and precious and I just adore them! Very funny and weird things happen in both the manga and anime!

I was first introduced to Hetalia in 9th grade, but back then I barely understood it. ^_^; One day, I was at a Barnes & Noble and looking in the manga section and sure enough there was volume one and volume two side-by-side on the bottom shelf. So I bought both of them and only remember reading them at least once everyday! But then one day, I lost them and I was really sad! I looked everywhere! In the end I bought new copies to fill the void. My only complaint is the original ones I had had the colored pages and the ones I got off here were all black & white. Other than that, they're okay!

Came in perfect condition. I definably recommend this to anyone, especially if you're a fan of the anime.

For those of you unfamiliar with this series, Hetalia is a manga and anime that incorporates every single racial stereotype you've ever heard of in a manner that makes you pee yourself from laughing so hard. But it also makes you kind of think. Not on a soul deep level, mind you, but seeing as how the comic strips in this series are based off of historic events, the laughs you get aren't cheap. Well, not all of the time. Regardless, it's a wonderful manga/anime series that is guaranteed to make you laugh.

I ordered this manga for my sister's birthday and she loved it. She said that the manga is similar to the anime series but more informed details to each characters.

I got this as a present for my friend and she loves it! It came carefully packaged and arrived ahead of schedule! I would really recommend this product as a gift or just for yourself.
