I saw this exhibit at our local museum but the gift shop was sold out of this book. I ordered it from (it was cheaper) and was not disappointed. The book has nice pictures of the art and good descriptions. The book arrived in perfect condition and on time.

This book covers a touring art collection centering upon Poseidon, one of the most important Greek gods who is surprisingly not thoroughly covered. The book has sold out at every location where the show appeared and I was only able to see it as a display copy at the Tampa Museum of Art on the closing day of the show in Tampa. The written text is thoughtful, beautifully written and fully illuminates the subject. The bountiful illustrations are absolutely beautiful and crystal clear. The objects covered include statuary, ceramics, mosaics, and coins. One terrific book! Highly recommended.
