A cute book that clearly summarizes in story form the Big Hero 6 movie. Ok for reading without the movie being seen, but definitely designed with the movie. Glosses over the more serious events in the movie in a way that makes it more appropriate for sleepy time reading. My 4 y.o. is very pleased with this.

My son loves this movie and so I wanted to get the book to tide him over between movie sessions. The book handled Tadashi's death so well, as another person pointed out. The pictures were great and the cover is nice and sturdy for a toddler.

For the price you can't beat golden books. They are a good read for little ones but as soon as they are old enough to realize that the story is missing parts from the movie is when they don't meet children's standards. Good art and price. Good books for starting a little one on reading and they are fun to collect.

This is a very sweet version of Big Hero 6 in the classic Little Golden Book format. I've been filling in some gaps in my huge collection from when I was a child as I've passed it onto my son. We love the movie and this book is the perfect addition to our massive collection.

My 2 1/2 year old son loves Big Hero 6. So when I saw this, I already knew he would love it. This is a short book that just goes through the major points of the movie, but you can still enjoy the book if you have not seen the movie. A solid choice for those who have young kids that love Big Hero 6.

Like to give this a true rating, but when the shipment arrived, the book was not in the box. I'm having trouble figuring out who to get ahold of to get this. We'd like the book for our grandsons birthday this weekend. Can't give a zero since one star is the lowest, so I'll give it the one star.

This is one of our favorite little golden books in our collection. It is an excellent adaptation of the movie and the illustrations are delightful.

I ordered this book for my 4 year old son. He loves reading stories before bed so we are always expanding our collection. Little golden books are always a really great addition, this one was a little disappointing though. I realize that you cannot fit the entire storyline in one of these small books, this one was really abbreviated. there were a lot of things that were left out that I feel like could have added to the book. just reading the book you really miss out on the teamwork that went into saving Abigail and bringing Big Hero 6 together. it leaves out Aunt Cass and pretty much all of the bot fight at the beginning. it was still ok and my son enjoyed it but even he asked if I had skipped pages because he realized that the story was missing parts. also the quality wasn't 100% it looked a little worse for wear. for the price though I think I would probably buy it again.
