## Customer Reviews

This book is "okay" for under 4 bucks. There are a lot of pages, but the sheets are thin and printed on both sides so I can imagine markers would destroy the thing. My main reason for giving it a 3 is because the stickers are very disappointing. All 50 of them fit on one sheet and many of them are half an inch high. The pictures are more on the detailed side so better for an older colorer.

The 50 stickers are very small and not too varied. The paper is greyish and looks dull; it won't make a good background for coloring

perfect!

great them and have a bit of reading to help in learning for the young ones good job Disney

I bought these as a gift for my small grand children. They were excited to receive them!. These

books kept them busy for a very long time. There's a lot of pages for them to color and are very much worth the price.

Gave one to each of my nine grandchildren ..... ages two to eight They all liked ....

I bought this for my kiddos on a recent 12-14 hour road trip. They used it there and back and was one of their favorites. It works well for a boy or a girl as we have both and they fought over it! ;)

Lots of pages for the price. Better price than what I've been finding at walmart lately
