This is the book to get you started on REAL Korean style food. I've tried a few others, and all of the food tasted like "fast-food" Korean, but this is the real deal. Like in the high-end restaurants. The clam stew with the addition of anchovies was genius. But if you're going for something simpler, there's also an easy fried chicken wings recipe that anyone could follow. And any Korean food fan has got to try the spicy pork and zucchini stew. The recipes are simple, yet really follow the actual Korean style, versus mimicking it. This was such a great find, don't pass it up if you're looking for something new and interesting

I have been dying to try to cook Korean food, so when I saw this, it was a MUST have. It's so unique and has already made my life so much easier. There's a simple recipe in it called Korean Seasoning Sauce, it is so easy to make and literally goes with EVERYTHING, fish, beef, soba noodles, EVERYTHING. There's even a recipe for seaweed soup that I had in a restaurant a few years back and have been looking for a recipe ever since. The recipes are so simple and so easy to follow. I can't WAIT to try the chestnut dessert, the picture looks SCRUMPTIOUS. This book was such an excellent find!

Great Korean cookbook. Photos inside are not in color and it was not as plentiful as I had thought but worth the price

The recipe that I made was easy and I had almost all of the ingredients in my pantry Already. Easy to follow.

All Oriental cooking is different one from another this Korean cookbook is full of great recipes from that region of the world. I love the ginger tea and the cod fillets. Thank you and enjoy your day.

Beautiful and delicious Korean recipes. Easy to prepare. Highly recommend.

Very, very basic. Uninspiring. Cheaply produced.
