I saw this book in a shop in Southport, NC. It was \$25 there and I just couldn't bring myself to spend that much. I found this and was happy with the price, not to mention it was on prime. I got it for my daughter to give it to her at Christmas. So I'm not sure if it will be a hit with her, but it sure is a hit with me! I love this thing, it's so cool!

This book/toy is being enjoyed by our 2-1/2 year old grandson. A good story and fun to read. Excellent price also.

My 11 month old daughter loves this book. It is highly interactive and educational teaching about each month of the year, animals, colors (each tentacle is a different color), and has interactive textures for children to touch and feel. The head is soft and squishy which makes it a good toy for an infant. If your child likes Monday the Bullfrog (teaches days of the week) they will likely also like this one.

Found this book originally in a Store, and found it for a much better price on . Very Cute book and interactive for toddlers. Seems as a toy, and is very durable. Arrived in package as showed in picture, box intact. Arrived on time. Have several other books they make similar to this. All very cute

We are designers and LOVE the idea of this book, why do they all have to have 4 sides and a front and back cover so for that its a pretty cool "book". having said that I Wish it was easier to open, its pretty hard to keep open for the little one and its hard to hold while open, but Our 16 month old loves it, so I guess thats all that counts.

My daughter loves this book on average I read it to her at least three times a day. A must have for little ones!!!

Absolutely adorable book. Not only is it a stuffed animal as well as a book but each page is a different month of the year with a different animal as well as a description of the weather that time of

month. Educational and fun.

Received in great condition, will go with his Monday The Bullfrog!
