I really thought this would be a great book, but I just can't recommend it. I found that many of the examples did not follow the sentence patterns they were teaching. There were also some typos. It could have been great, but I found myself frustrated with trying to use it in our homeschool.

Daughter needed this for summer school AP class and was glad to have found one in good condition! Books condition was as described. No complaints.

I am a high school English teacher and I was looking for a book that would help my students to write

better. This book fulfills this purpose. While it doesn't focus on grammar, it does provide useful sentence instruction. I will continue to use in conjunction with other grammar lessons.

The quality of the book is not okay. The surface of the book has small damage. They did not cleave pages very well. :(

This is a great book. The sentence pattern styles can really aid in writing papers. I highly recommend this book!

A disaster of a book! Begins with how to use a semi-colon. For those who have taught punctuation, need I say more? Beginning with a complete sentence, and then moving on to commas would make the book useful. Examples are way overly-complex. I threw it away.

A good book written in simple language for the new writers to acquire basic writing skills to make their books bestsellers.

I was looking for a book that can do exactly the same. Good book for aspiring writers. Good examples and exercises.
