THIS FIREARM WEAPONS MANUAL HAS GREAT PHOTOS AND EASY TO FOLLOW DESCRIPTION OF RIFLE, SHOTGUN AND HANDGUN BREAK DOWN AND FIELD STRIPPING

PROCEDURES.IT IS A SUPERB ADDITION TO ANYONE,S WEAPONS LIBRARY.

I bought this for my husband after I borrowed it from my local library for him and he said it had excellent, updated information on several of his latest acquisitions. We were pleased to the point of astonishment at the price and speed of delivery. We may never buy retail again!

Really good detailed pictures. I only wish they had used the most common looking AR-15 style rifle instead of the Colt which looks slightly different from most models. I'm not great with breaking down my weapons but I do feel a little more confident with these instructions.

very good book very detailed and helpful will buy others

A pretty comprehensive manual covering a whole host of different firearms. Not a must have but nonetheless a very useful book.

On time and as advertised.

Very handy reference! Clear and concise with good pictures. If you work on many guns this will be a good friend.

love it
